RE: FIFRA § 6(a)(2) Report
Dursban* Insecticide
EPA Registration Number: Unknown Formulation
Active Ingredient: Chlorpyrifos
CAS Registry Number: 002921-88-2
DERBI: 101570
State: FL
Severity Category: H-B

Dow AgroSciences submits the following information in response to its understanding of the U.S. Environmental Protection Agency's interpretation of FIFRA § 6(a)(2). However, Dow AgroSciences has not concluded that this information regards an "unreasonable adverse effect on the environment" or that it is reportable under FIFRA § 6(a)(2).

Dow AgroSciences received the enclosed additional information regarding an incident previously reported to the Agency on July 9, 1999, DERBI 101570. A supplemental report was submitted to the Agency on January 7, 2000.

If you wish to discuss this matter further, please call us.

Regards,

INCIDENT CIRCUMSTANCES

Dr. Richard Lipsey, 6/19/1996: Inspected and collected samples from the apartment. States the following products were probably used in the applications by the apartment complex management: Dursban, Demon, Safrotin, Demize, Linda and Zinc Phosphide. The [REDACTED] moved into the apartment in September 1994 and vacated on 5/14/1996.

[REDACTED] Complaints of fast and irregular heart beat, (11/2 years), twitching of the arms, insomnia, chronic fatigue, hair loss, memory and concentration problems, urinary incontinence at night, low grade fevers, numbness in left arms and face.

[REDACTED] Parkinson's; Complaints of headaches, plugged sinuses, chronic fatigue, tremors, twitches, mentally slower, mildly depressed, drooping right eye lid, and yellow eyes.

Results of bulk samples indicated no Demon in any sample. Dursban was allegedly found in five samples and ranged from 2 ppm to 11.09 ppm.

"In conclusion, you and your wife have symptoms consistent with chronic exposure to Dursban."
